MEMORANDUM FOR: Executive Assistant to the
Deputy Director (Support)

SUBJECT : Publication of the Organization
of the Deputy Director
(Science and Technology)

1. Attached are the current missions, functions, and organization charts for the Office of the DD/S&T, plus the Offices of Special Activities, Scientific Intelligence and ELINT. This material has been coordinated and revised where necessary so that it now has met with the informal concurrence of the appropriate Agency components. We would appreciate your prompt action in having this material published in the Agency regulatory system.

2. Not included at this time is the corresponding material for the Offices of Research and Development, Computer Services and the Foreign Missile and Space Analysis Center. The Office of Research and Development is currently under intensive study and its substantive orientation is being recast. The Office of Computer Services is also being thoroughly reviewed by the DD/S&T and until such time as that review is completed we prefer not to draft for publication a missions and functions statement. Further, material for the recently created Foreign Missile and Space Analysis Center is in the process of preparation although the responsibility for this Office has been incorporated into the O/DD/S&T organizational data. Will you be good enough, therefore,
